

Dear Colleagues,

Gathering strength for seven years, we have been building dreams with same heart for a bright future. In 2024, we celebrate the seventh anniversary of the establishment of the Belt and Road Architectural University International Consortium (BRAUIC). Throughout these years, the architectural universities along the Belt and Road have effectively promoted the integration and win-win cooperation, serving as an impressive example of how professional university alliances contribute to high-quality Belt and Road development.

To summarize the achievements of education cooperation along the Belt and Road and develop an action plan for future training of innovative talents, scientific collaboration, and cultural exchange, the 2024 BRAUIC Conference and Forum will be held in Tianjin, China, which is a crucial intersection for both land and sea transportation along the Belt and Road. The Conference aims to bring together delegates from member universities, government officials, researchers, experts, and entrepreneurs from relevant countries. It will provide a platform for exchanging experiences, sharing new ideas, and showcasing best practices that enable high-quality development. Ultimately, the conference will further consolidate the Belt and Road Community of Architectural Education.
